

RESOLUTION  
No. 2007-1

A resolution by the Board of Directors, Redlands Mesa Water Users, Inc. (RMWUI)

WHEREAS it is the responsibility of RMWUI to fairly and accurately divide, measure and deliver irrigating water on Redlands Mesa, and

WHEREAS the structures for dividing, measuring and delivering irrigating water on Redlands Mesa must be kept in good repair in order for RMWUI to fulfill its responsibility, and

WHEREAS certain of these structures have fallen into disrepair, resulting in the inability of RMWUI to accurately divide, measure and deliver irrigating water,

NOW THEREFORE BE IT RESOLVED that the policy followed by the Board of Directors to return said structures to an acceptable state of repair shall be:

1. An attempt shall be made to persuade those persons using the structure to voluntarily repair it. This shall be done in writing, setting forth the exact repairs required, and a time limit for doing so.
2. If repairs are not made to the satisfaction of the Board of Directors within the allotted time, the Board may choose to make the repairs, and bill the water users involved for the cost.
3. The bill for repairs shall be considered payable upon demand, the same as any other assessment levied by RMWUI, with the same penalties for non-payment as may be applied to any other delinquent assessment.

ADOPTED By the Board of Directors this 19<sup>th</sup> day of January, 2007.
